BULLDOG
WEATHERVANE

A master craftsman who has hand-forged custom weathervanes for the glitterati from East Hampton to Nantucket, Anthony Holand, of **TUCK & HOLAND**, recently created this whimsical weathervane for a Westport real estate developer whose bulldog befriended an abandoned raccoon. From a lobster or an osprey to a velociraptor (for director Steven Spielberg), Holand will sculpt an imaginative piece of art to adorn your rooftop.

In hues like Firecracker, Barnacle Blue and Dune, **SEACLOTH** has captured the essence of summer fun in its Beach Party fabric line. Choose from a cotton/linen blend for indoor use or an acrylic version that will stand up to the elements on your outdoor furniture.
